Reason for nominating:

Local government has an essential role in every community in Australia. To meet the challenges and opportunities we face and to ensure the very best outcomes are realised for our local communities I believe it is critical that we advocate for and offer our employees connected, innovative and evidence based training and development through the national network of Local Government Professionals. The LG Professionals for me has been career defining. I started in Local Government at the age of 19 and for my first 17 years focused on Information Technology. In 2008, I was awarded 'Highly Commended' in the Emerging Leader of the Year category at the then LGMA awards. When represented the award at an ACC Council Meeting, I stayed the whole Council meeting and was absolutely fascinated, by the end knew I wanted my career to go into Local Government Executive Management. LG Professionals, SA has helped to get me there.

In particular, I have focussed on the overall governance of the organisation, its strategic plan and have worked closely with the CEO and staff to support them in their objectives and goals.

I have been pleased to actively participate in the Women's Network and have been working with the Committee to ensure the training opportunities through the council forums and State Conference deliver the training and development staff are seeking to refine their skills and expertise. This network is growing in strength and value.

Having worked as a consultant and in local government, I am committed to the sector and consider it to be one of the most exciting areas to work in. I am also engaged in determining appropriate support for CEO's across the State through establishing networking and training opportunities, an area which requires a lot more work and clarification.

As CEO of the City of Prospect I have the opportunity to foster the connection between LG Professionals, SA and regional locations given my previous employment at Wakefield Regional Council to ensure the sector can meet the needs of all employees across the State.
